Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of Bucksport, Maine, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principle generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of Bucksport, Maine as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension information on pages 4 through 11 and 52 through 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Bucksport, Maine's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted

in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2015**

(UNAUDITED)

The following management's discussion and analysis of the Town of Bucksport, Maine's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2015. Please read it in conjunction with the Town's financial statements.

Financial Statement Overview

The Town of Bucksport's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule and pension information, and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the Town's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regards to the Town's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The Statement of Net Position – this statement presents *all* of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position.

The Statement of Activities – this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Both of the above mentioned financial statements have separate columns for the two different types of town activities. The types of activities presented for the Town of Bucksport are:

- *Governmental activities* – The activities in this section are mostly supported by taxes and intergovernmental revenues (federal and state grants). Most of the Town's basic services are reported in governmental activities, which include general government, protection, public works, health and sanitation, education, recreation, community and social agencies, and unclassified.
- *Business-type activities* – These activities are normally intended to recover all or a significant portion of their costs through user fees and/or charges to external users for goods and/or services. These activities for the Town of Bucksport include the sewer fund and the marina fund.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Bucksport, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the Town of Bucksport can be divided into two categories: governmental funds and proprietary funds.

Governmental funds: Most of the basic services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the Town's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the Town.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues,

expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The Town of Bucksport presents three columns in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances. The Town's major governmental funds are the general fund and the TIF fund. All other funds are shown as nonmajor and are combined in the "All Nonmajor Funds" column on these statements.

The general fund is the only fund for which the Town legally adopted a budget. The Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

Proprietary Funds: The Town of Bucksport maintains two proprietary funds, the sewer fund and the marina fund. This fund is used to show activities that operate more like those of commercial enterprises. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Like the government-wide financial statements, proprietary fund financial statements use the accrual basis of accounting. No reconciliation is needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Statement of Cash Flows - Proprietary Funds.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund, a Schedule of Proportionate Share of the Net Pension Liability and a Schedule of Contributions.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regards to nonmajor funds, capital asset activity and other detailed budgetary information for the general fund.

Government-Wide Financial Analysis

Our analysis below focuses on the net position, and changes in net position of the Town's governmental activities. The Town's total net position for governmental activities increased by \$172,877 from \$22.80 million to \$22.97 million. For the business-type activities the Town's total net position increased by \$90,826 from \$4.95 million to \$5.04 million.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - decreased for the governmental activities to a balance of \$10,582,389 at the end of the fiscal year. For the business-type activities, the unrestricted net position increased to a balance of \$1,099,506.

Financial Analysis of the Town's Fund Statements

Governmental funds: The financial reporting focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information may be useful in assessing the Town's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's financial position at the end of the year, and the net resources available for spending.

The general fund total fund balance decreased by \$451,307 from the prior fiscal year. The TIF fund was established during 2015 and there is not any comparative data, but it did have a positive fund balance of \$702,329 at the end of the fiscal year. The nonmajor fund balances decreased by \$54,399 from the prior fiscal year.

Proprietary funds: The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The sewer fund had an increase in net position for the year of \$82,085. The marina fund had an increase in net position for the year of \$8,741.

Budgetary Highlights

The significant differences between the original and final budget for the general fund were due to the use of restricted and unassigned fund balances and various council-approved budget adjustments.

The general fund actual revenues exceeded budgeted amounts by \$149,408. This was mostly a result of excise taxes and miscellaneous revenues being received in excess of budgeted amounts.

The general fund actual expenditures were under budget by \$294,247. All of the expenditure categories were under budget with the exception of public works.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2015, the net book value of capital assets recorded by the Town decreased by \$283,297 from the prior year. The decrease is the result of capital additions of \$684,598 less current year depreciation of \$967,895.

Currently Known Facts, Decisions, or Conditions

Economic Factors and Next Year's Budgets and Rates

Bucksport's financial performance and management of resources remains strong with thirteen consecutive general fund surpluses. The unassigned general fund balance increased to \$7.66 million for the year ended June 30, 2015 from \$7.61 million for the same period in 2014 or a .73% increase.

Fiscal 2015 budget expectations continued to support operational and program needs within LD-1 tax limitations despite continued economic constraints and flat local economy. Property taxes remained the largest source of revenue for the Town in fiscal 2015 at \$10,044,899, comprising approximately 76.48% of revenues. The Town's mil rate increased to \$14.11, an increase of \$.55 over the previous year rate of \$13.56. Components of the increase included increased educational costs of \$494,312 and reduced State of Maine revenue sharing. The Town's final budget for fiscal 2015 was \$42,267 higher than fiscal 2014.

To limit the Town's exposure to unforeseen cost and more specifically to provide an adequate level of funding in the event of a valuation loss from large taxpayers, Bucksport adopted an Undesignated Fund Balance Policy in May of 2007. The Town's management designed the policy around maintaining a level of funding in Undesignated Fund Balance (surplus) that provides financial stability for the community into the near future. In addition, the policy will assist the Town in maintaining its current favorable bond rating and provide direction to the Town Manager during annual budget preparation. The Town maintained balances in excess of the required minimum level for the fiscal years ended 2015 and 2014. The policy also includes a provision for the suggested utilization of excess funds on future capital improvements and/or accelerated payment of debt service.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2015

| | |
|---|-------------------|
| Net change in fund balances - total governmental funds (Statement E) | <u>\$ 196,623</u> |
| Amounts reported for governmental activities in the Statement of Activities (Statement B) are different because: | |
| Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense allocated to those expenditures over the life of the assets: | |
| Capital asset purchases | 531,207 |
| Capital asset disposals | - |
| Depreciation expense | <u>(645,985)</u> |
| | <u>(114,778)</u> |
| Revenues in the Statement of Activities that do not provide current financial resources are not reported. | |
| Taxes and liens receivable | <u>12,974</u> |
| Decrease in the receivable for long-term debt obligations from RSU No. 25 | <u>(515,462)</u> |
| Deferred outflows of resources are a consumption of net position by the government that are applicable to a future reporting period and therefore are not reported in the funds. | |
| | <u>43,285</u> |
| Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position | |
| | <u>515,462</u> |
| Deferred inflows of resources are an acquisition of net position by the government that are applicable to a future reporting period and therefore are not reported in the funds. | |
| | <u>(275,811)</u> |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds: | |
| Accrued compensated absences | 45,976 |
| Net pension liability | <u>264,608</u> |

TOWN OF BUCKSPORT, MAINE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Town of Bucksport was incorporated under the laws of the State of Maine. The Town operates under the council-manager form of government and provides the following services: general government, protection, public works, health and sanitation, education, recreation, community and social agencies, and unclassified.

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the Town has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the Town has chosen not to do so.

The Town's combined financial statements include all accounts and all operations of the Town. We have determined that the Town has no component units as described in GASB Statement No. 14 and amended by GASB Statements No. 39 and No. 61.

Government-Wide and Fund Financial Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds).

Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Town's sewer fund and marina fund are categorized as business-type activities. All other activities of the Town are categorized as governmental.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position are reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions and business-type activities (general government, protection, etc.). The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government-wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The Town does not allocate indirect costs. All costs are charged directly to the corresponding department.

The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

Measurement Focus - Basic Financial Statements & Fund Financial Statements

The financial transactions of the Town are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. Both fiduciary funds and component units that are fiduciary in nature have been excluded from these financial statements.

The following fund types are used by the Town:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

- a. The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

TOWN OF BUCKSPORT, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- b. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- c. Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment.
- d. Permanent Funds are used to account for assets held by the Town that are legally restricted pursuant to Title 30-A, §5653 of the Maine State Statutes, as amended, and unless otherwise specified, only earnings, and not principal, may be used for purposes that benefit the Town or its citizenry. The Town's policy for authorizing and spending investment income follows State statutes.

2. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Operating revenues include charges for services, intergovernmental reimbursements and other miscellaneous fees which are a direct result of the proprietary activity. Non-operating revenues are any revenues which are generated outside of the general proprietary activity, i.e. interest income. The following is a description of the proprietary funds of the Town:

- a. Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) established fees and charges based on a pricing policy designed to recover similar costs.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column, GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Budget

The Town's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

1. Early in the second half of the year the Town prepares a budget for the fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Town Council was called for the purpose of adopting the proposed budget after public notice of the meeting was given.
3. The budget was adopted subsequent to passage by the Town Council.

TOWN OF BUCKSPORT, MAINE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. The Town does not adopt budgets for Special Revenue Funds.

Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. The Town's investment policy requires collateralization of accounts and deposits exceeding an amount equal to 25% of capital, surplus, and undivided profits as defined by the laws of the State of Maine.

It is the Town's policy to value investments at fair value. None of the Town's investments are reported at amortized cost. For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents. The Town Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities.
- Certificates of deposits and other evidences of deposits at banks, savings and loan associations, and credit unions.
- Repurchase agreements
- Money market mutual funds

Inventories

Inventories consist of expendable supplies held for consumption and are valued at cost. Under the consumption method, the costs of inventory items are recognized as expenditures when used. In the general fund, inventory consists of diesel fuel, gasoline, winter salt and sand and gravel. Inventory in the marina fund consists of gasoline and supplies. Inventories of supplies in the sewer fund are considered to be expenditures at the time of purchase and are not included in the sewer fund balance sheet.

Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Any residual balances outstanding between governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances".

TOWN OF BUCKSPORT, MAINE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

Allowance for Uncollectible Accounts

The allowance for uncollectible accounts for the ambulance receivables and micro-loans was estimated to be \$161,952 and \$26,174, respectively, as of June 30, 2015.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as streets, traffic signals, and signs are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated fixed assets are valued at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include roads, bridges, underground pipe (other than related to independently owned utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the Town. The Town has not retroactively recorded infrastructure.

Estimated useful lives are as follows:

| | |
|----------------------------|---------------|
| Buildings and improvements | 10 - 70 years |
| Infrastructure | 20 - 50 years |
| Machinery and equipment | 5 - 30 years |
| Vehicles | 5 - 30 years |

TOWN OF BUCKSPORT, MAINE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of bonds payable, compensated absences and net pension liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund statements as it is in the government-wide statements.

Compensated Absences

The Town's policies regarding vacation and sick time permit employees to accumulate earned but unused vacation and sick leave. The liability for these compensated absences is recorded as long-term debt in the government-wide financial statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. As of June 30, 2015, the Town's liability for compensated absences is \$179,041.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Participating Local District (PLD) Consolidated Plan and additions to/deductions from the PLD Consolidated Plan's fiduciary net position have been determined on the same basis as they are reported by the PLD Consolidated Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used

TOWN OF BUCKSPORT, MAINE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

for those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components – nonspendable, restricted, committed, assigned and unassigned.

Nonspendable – This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted – This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – This includes amounts that can be used only for specific purposes determined by a formal action of the inhabitants of the Town. The inhabitants of the Town through Town meetings and/or the Town Council are the highest level of decision-making authority of the Town. Commitments may be established, modified, or rescinded only through a Town meeting vote.

Assigned – This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is expressed by the Town Council.

Unassigned – This includes all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the Town considers restricted funds to have

TOWN OF BUCKSPORT, MAINE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Town considers amounts to have been spent first out of assigned funds, and then unassigned funds, as needed.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will at times report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town has only one type of item, deferred outflows related to pensions. This item is reported in the statement of net position.

In addition to liabilities, the statement of financial position and or balance sheet will at times report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has deferred tax revenues, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, this item is reported in the governmental funds balance sheet. Prepaid taxes also qualify for reporting in this category. This item is reported in both the statements of net position and governmental funds balance sheet. Deferred inflows related to pensions qualifies for reporting in this category as well. This item is reported only in the statement of net position. All items in this category are deferred and recognized as an inflow of resources in the period that the amounts become available.

Revenue Recognition - Property Taxes - Modified Accrual Basis

The Town's property tax for the current year was levied July 1, 2014 on the assessed value listed as of April 1, 2014, for all real and personal property located in the Town. Taxes were due in two installments on August 31, 2014 and March 31, 2015. Interest on unpaid taxes commenced on September 1, 2014 and April 1, 2015, at 7% per annum.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year end. The remaining receivables have been recorded as deferred revenues.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in

TOWN OF BUCKSPORT, MAINE

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

excess of 100% is referred to as overlay, and amounted to \$94,290 for the year ended June 30, 2015.

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (grant income/expenses).

Operating/Non-operating Proprietary Fund Revenues

Operating revenues consist mainly of direct revenue sources and/or charges for services applicable to that fund.

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The Town does not utilize encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the Town's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS

The Town's investment policies, which follow state statutes, require that all investments be made considering the safe and sound investment of principal and preservation of capital in the overall portfolio, maintenance of sufficient liquidity to meet day-to-day operations and other cash requirements and maximization of income, within established investment risk guidelines, with consistent cash flows throughout the budgetary cycle. These investment policies apply to all Town funds.

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

Deposits:

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the Town will not be able to recover its deposits. The Town does not have a policy covering custodial credit risk for deposits. However, the Town maintains deposits in qualifying financial institutions that are a member of the FDIC or NCUSIF as defined in Title 30-A, Section 5706 of the Maine Revised Statutes. At June 30, 2015, the Town's cash balance of \$4,548,785 was comprised of bank deposits amounting to \$4,553,402. Of these bank deposits, \$775,242 was insured by federal depository insurance and consequently was not exposed to custodial credit risk, \$3,741,077 was collateralized with securities held by the financial institution in the Town's name and \$37,083 was covered by the Securities Investors Protection Corporation (SIPC).

| Account Type | Bank Balance |
|---------------------------|-----------------|
| Checking accounts | \$ 2,747,447 |
| Repurchase agreement | 142,703 |
| Money market account | 1,626,169 |
| Cash and cash equivalents | 37,083 |
| | \$ 4,553,402 |

Investments:

Custodial credit risk for investments is that, in the event of failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the Town does not have a policy for custodial credit risk for investments.

At June 30, 2015, the Town's investments of \$8,210,100 were comprised of \$23,945 of stocks that are registered in the Town's name, held by the Town and therefore not exposed to custodial credit risk. \$90,808 of open-ended mutual funds was collateralized and not exposed to custodial credit risk. \$608,523 of equities and fixed income was covered by the Securities Investors Protection Corporation (SIPC) or was collateralized with securities held by the financial institution in the Town's name. \$7,486,824 of certificates of deposit was collateralized with securities held by the financial institution in the Town's name.

NOTE 2 - DEPOSITS AND INVESTMENTS (CONTINUED)

At June 30, 2015, the Town had the following investments and maturities:

| Investment Type | Fair Value | Not Applicable | Less than 1 Year | 1 - 5 Years |
|---------------------------|---------------------|-------------------|---------------------|---------------------|
| Certificates of deposit | \$ 7,486,824 | \$ - | 5,214,690 | \$ 2,272,134 |
| Mutual funds - open-ended | 90,808 | 90,808 | - | - |
| Equities | 144,015 | 144,015 | - | - |

| | <u>\$ 8,210,100</u> | <u>\$ 596,617</u> | <u>\$ 5,265,282</u> | <u>\$ 2,348,201</u> |

Credit risk – Statutes for the State of Maine authorize the Town to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. The Town does not have an investment policy on credit risk. Generally, the Town invests excess funds in money market accounts and various certificates of deposit.

Interest rate risk – is the risk that changes in interest rates will adversely affect the fair value of an investment. The Town does not have a policy related to interest rate risk.

The Town has determined that it has complied with state and federal laws governing the investment of public funds.

NOTE 3 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at June 30, 2015 consisted of the following individual fund receivables and payables:

| | Receivables (Due from) | Payables (Due to) |
|---------------------------------|---------------------------|----------------------|
| General Fund | \$ 14,094 | \$ 3,520,043 |

NOTE 5 - NOTE RECEIVABLE

On December 5, 2011, the Town entered into a note receivable from Chambers Realty LLC for an assisted living facility. The original amount of the note was for \$200,000 with 0% interest. As long as the property is maintained and operated as an assisted living facility for 15 years in accordance with the terms set forth in the agreement, there shall be no payments due from the borrower in repayment of the loan and the loan shall be forgiven at the end of the 15 year period. The following is a summary of changes in the note receivable for the year ended June 30, 2015:

NOTE 6 - LONG-TERM RECEIVABLE

As of July 1, 2009, the Bucksport school department became a member of Regional School Unit (RSU) No. 25. The RSU Plan requires that the RSU be responsible for payment of all school-related long-term debt on behalf of the Town. As of June 30, 2015, a long-term receivable has been recorded for \$3,290,696, which represents school-related general obligation bonds. The State of Maine Department of Education is responsible for paying approximately 92% of the debt service on general obligation bonds directly to the Maine Municipal Bond Bank. The remaining debt service for bonds is paid by the RSU.

| | | | \$ 3,639,485 |

NOTE 13 - RISK MANAGEMENT

The Town is a member of the Maine Municipal Association – Worker Compensation Trust Fund (“Fund”). The Fund was created to formulate, develop and administer a program of modified self-funding for the Fund's membership, obtain lower costs for worker's compensation coverage and develop a comprehensive loss control program. The Town pays an annual premium to the fund for its worker's compensation coverage. The Town's agreement with the Fund provides that the fund will be self-sustaining through member premiums and will provide, through commercial companies' reinsurance contracts, coverage for claims in excess of \$1,000,000.

The Town has its liability insurance through the Maine Municipal Association. The Town pays an annual premium for its property and liability coverage. Under the property coverage portion of the policy, coverage is provided after a \$1,000 per occurrence deductible is met; the current total property value is \$10,722,683. Under the general liability portion of the policy, the limit is \$400,000 per occurrence for causes of action pursuant to the Maine Tort Claims Act. Coverage is limited to those areas for which governmental immunity has been expressly waived and \$2,000,000 per occurrence for causes of action pursuant to federal law or state law for which immunity is not proved by the Maine Tort Claims Act. The same limit applies for Law Enforcement after a \$1,000 per occurrence deductible is met. For public official liability and employment practices liability, the coverage is \$2,000,000 per occurrence and \$4,000,000 aggregate with a \$5,000 deductible.

Based on the coverage provided by the insurance purchased, the Town is not aware of any material actual or potential claim liabilities which should be recorded as of June 30, 2015. There were no significant reductions in insurance coverage from that of the prior year and amounts of settlements have not exceeded insurance coverage in the past three years.

NOTE 14 - LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

The Town of Bucksport's landfill is at 100% capacity to date. Therefore, the estimated remaining landfill life is zero years. Federal and state laws require that certain post closure care be met. The Town estimates that on an annual basis, some immaterial costs will be incurred for post closure care. The annual amount will be paid for within the Town's annual operating budget.

NOTE 15 - DEFINED BENEFIT PENSION PLAN

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

Plan Description

Town employees contribute to the Maine Public Employees Retirement System (MainePERS), a cost-sharing multiple-employer defined benefit pension plan established by the Maine State Legislature. Title 5 of the Maine Revised Statutes Annotated assigns the authority to establish and amend benefit provisions to the Participating Local District (PLD) Consolidated Plan's advisory group, which reviews the terms of the plan and periodically makes recommendations to the Legislature to amend the terms. The Maine Public Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the Consolidated Plan. That report may be obtained online at www.maineopers.org or by contacting the System at (800) 451-9800.

Benefits Provided

The Maine Public Employees Retirement System provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. The System's retirement programs provide defined retirement benefits based on members' average final compensation and service credit earned as of retirement. Vesting (i.e., eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit (effective October 1, 1999, the prior ten year requirement was reduced by legislative action to five years for employees of PLDs). In some cases, vesting occurs on the earning of one year of service credit immediately preceding retirement at or after normal retirement age. For PLD members, normal retirement age is 60. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below her/his normal retirement age at retirement. The System also provides disability and death benefits which are established by contract with PLD employers under applicable statutory provisions.

TOWN OF BUCKSPORT, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 15 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Upon termination of membership, members' accumulated employee contributions are refundable with interest, credited in accordance with statute. Withdrawal of accumulated contributions results in forfeiture of all benefits and membership rights. The annual rate of interest credited to members' accounts is set by the System's Board of Trustees and is currently 5.0%.

Contributions

Retirement benefits are funded by contributions from members and employers and by earnings on investments. Disability and death benefits are funded by employer normal cost contributions and by investment earnings. The Town's police and fire department employees are part of the PLD's special plan "4N" and are required to contribute 8.0% of their annual covered salary, while all other employees are part of the PLD's plan "AN" and are required to contribute 7.0% of their annual covered salary and the Town is required to contribute at an actuarially determined rate. The current rates for special plan "4N" and plan "AN" are 4.0% and 4.1%, respectively of covered payroll. The contribution rates of plan members and the Town are established and may be amended by the Maine Public Employee Retirement Systems advisory group. The Town's contribution to the MainePERS PLD Consolidated Plan for the year ended June 30, 2015 was \$68,195.

As of June 30, 2015, the Town had an individual un-pooled pension asset of \$484,505. This was effective June 30, 1996 when the Town withdrew from the Maine State Retirement System and opted not to join the PLD Consolidated Plan. The Town has received a distribution of their individual un-pooled pension asset at June 30, 2015. It is the Town's intent to use a portion of this asset as an offset to cover the cost of current and future contributions due to fund the plan. The Town's contributions for the year ended June 30, 2015 have been adjusted accordingly and reflect the gross contributions due for service prior to applying the offset from this asset.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Town reported a liability of \$249,821 for its proportionate share of the net pension liabilities for the plan. The net pension liabilities were measured as of June 30, 2014, and the total pension liabilities used to calculate the net pension liabilities was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liabilities were based on a projection of the Town's long-term share of contributions to each pension plan relative to the projected contributions of all PLDs, actuarially determined. At June 30, 2014, the Town's proportion was 0.162347%, which was a decrease of 0.004535% from its proportion measured as of June 30, 2013.

NOTE 15 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

For the year ended June 30, 2015, the Town recognized total pension expense of \$32,082. At June 30, 2015, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | PLD Plan | |
|--|-----------------------------------|----------------------------------|
| | Deferred Outflows of Resources | Deferred Inflows of Resources |
| Differences between expected and actual experience | \$ 31,370 | \$ - |

NOTE 15 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial Methods and Assumptions

The collective total pension liability for the Plan was determined by an actuarial valuation as of June 30, 2014 and 2013, using the following methods and assumptions applied to all periods included in the measurement:

Actuarial Cost Method

The Entry Age Normal actuarial funding method is used to determine costs. Under this funding method, the total employer contribution rate consists of two elements: the normal cost rate and the unfunded actuarial liability (UAL) rate.

The individual entry age normal method is used to determine liabilities. Under the individual entry age normal method, a normal cost rate is calculated for each employee. This rate is determined by taking the value, as of age at entry into the plan, of the member's projected future benefits, and dividing it by the value, also as of the member's entry age, of his or her expected future salary. The normal cost for each employee is the product of his or her pay and his or her normal cost rate. The normal cost for the group is the sum of the normal costs for all members.

Experience gains and losses, i.e., decreases or increases in liabilities and/or in assets when actual experience differs from the actuarial assumptions, affect the unfunded actuarial accrued liability.

Asset Valuation Method

The actuarial valuation employs a technique for determining the actuarial value of assets which dampens the swing in the market value. The specific technique adopted in this valuation recognizes in a given year one-third of the investment return that is different from the actuarial assumption for investment return.

Amortization

The net pension liability of the PLD Consolidated Plan is amortized on an open basis over a period of fifteen years.

Significant actuarial assumptions employed by the actuary for funding purposes as of June 30, 2014 and June 30, 2013 are as follows:

Investment Rate of Return - For the PLD Plan, 7.25% per annum, compounded annually.

TOWN OF BUCKSPORT, MAINE
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2015

NOTE 15 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial Methods and Assumptions (Continued)

Salary Increases, Merit and Inflation - Members of the consolidated plan for PLDs, 3.50% to 9.50% per year.

Mortality Rates - For participating local districts, the RP2000 Tables projected forward to 2015 using Scale AA are used; for all recipients of disability benefits, the Revenue Ruling 96-7 Disabled Mortality Table for Males and Females is used.

Cost of Living Benefit Increases - 3.12% for participating local districts.

The long-term expected rate of return on pension plan assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class of assets. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as June 30, 2014 are summarized in the following table:

| Asset Class | PLD Plan | |
|-----------------|-------------------|--|
| | Target Allocation | Long-term Expected Real Rate of Return |
| US equities | 20% | 5.2% |
| Non-US equities | 20% | 5.5% |

NOTE 15 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial Methods and Assumptions (Continued)

Discount Rate

The discount rate used to measure the collective total pension liability was 7.25% for 2014 and 2013. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and non-employer entity contributions will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following table shows how the collective net pension liability/(asset) as of June 30, 2014 would change if the discount rate used was one percentage point lower or one percentage point higher than the current rate. The current rate is 7.25% for the PLD Consolidated Plan.

| | 1% Decrease | Discount Rate | 1% Increase |
|--|----------------|------------------|----------------|
| <u>PLD Plan:</u> | | | |
| Discount rate | 6.25% | 7.25% | 8.25% |
| Town's proportionate share of the net pension liability | \$ 779,369 | \$ 249,821 | \$ (192,815) |

Changes in Net Pension Liability

Changes in net pension liability are recognized in pension expense for the year ended June 30, 2014 with the following exceptions.

Differences between Expected and Actual Experience

The difference between expected and actual experience with regard to economic or demographic factors were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. For 2014, this was 4 years for the PLD Consolidated Plan.

NOTE 15 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Changes in Net Pension Liability (Continued)

Differences between Projected and Actual Investment Earnings

Differences between projected and actual investment earnings were recognized in pension expense using a straight-line amortization method over a closed five-year period.

Changes in Assumptions

Differences due to changes in assumptions about future economic or demographic factors or other inputs were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. There were no changes in assumptions for the PLD Consolidated Plan.

Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions

Differences resulting from a change in proportionate share of contributions and differences between total employer contributions and the employer's proportionate share of contributions were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. Differences between total employer contributions and the employer's proportionate share of contributions may arise when an employer has a contribution requirement for an employer specific liability.

NOTE 16 – DEFERRED COMPENSATION PENSION PLAN

INTERNATIONAL CITY MANAGERS ASSOCIATION - RETIREMENT CORPORATION

The Town offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits the employee to defer a portion of salary until future years. There is no employer match by the Town. The deferred compensation is not available to employees until termination, retirement, death or unforeseen emergency.

TOWN OF BUCKSPORT, MAINE

NOTES TO FINANCIAL STATEMENTS

NOTE 16 – DEFERRED COMPENSATION PENSION PLAN (CONTINUED)

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) to be held in a trust for the exclusive benefit of the participants and their beneficiaries.

It is the opinion of the Town's management that the Town has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor.

NOTE 17 - OTHER POSTEMPLOYMENT BENEFITS

The Town, in accordance with its current life insurance company agreement, provides life insurance benefits to eligible retirees and their spouses. Retired plan members and beneficiaries currently receiving benefits are required to contribute specified amounts towards the cost of receiving benefits under the Town's life insurance benefits program.

Funding policy – The Town currently funds claims and administrative costs for postemployment benefits through its life insurance company or through current year expenditures.

The current census of Town benefit participants as of June 30, 2015 was seventeen participants. Total expenditures for the year ended June 30, 2015 were \$2,093.

NOTE 18 - TAX INCREMENT FINANCING AGREEMENT

On March 20, 1997, the Bucksport Town Council approved the Champion International Tax Increment Financing District (TIF) and adopted a development program for the District as authorized pursuant to Chapter 207 of Title 30-A of the Maine Revised Statutes as amended. The development program for the district was amended March 27, 2000. The original valuation of the property (adjusted for revised assessment) is \$64,993,368; \$45,178,331 in TIF captured value was added, bringing the 2014-15 valuation of the property to \$114,774,430. Seventy-five percent of the property taxes to be generated on the improvements within the District will be returned to the developer while the remaining 25% will be kept by the Town to fund a development plan as approved by the Office of Economic and Community Development on March 31, 1997. The District expires after a twenty-year period and all tax revenues will be returned to the general operating fund of the Town. The TIF agreement was amended on March 27, 2000. Ownership of the District was transferred to International Paper in 2003.

NOTE 18 - TAX INCREMENT FINANCING AGREEMENT (CONTINUED)

On October 28, 2010, the Bucksport Town Council voted to approve the second amendment request on the now "Verso Bucksport" TIF District, extending the District life by 10 years through March 31, 2027 along with certain other amendments to the Development Plan, consistent with MRSA 30-A § 5224. The Office of Economic and Community Development approved the amendment request on March 22, 2011.

In addition, Verso Paper requested a new thirty-year TIF District, which includes new electrical energy capacity by reconfiguration of its energy plant, modifying the waste fuel biomass boiler and adding a 20-30 megawatt turbine. The Bucksport Town Council voted to approve the request on October 28, 2011. It was approved by the Office of Economic and Community Development on March 29, 2012. The new District captures 100% of the taxable improvements and returns 75% of the captured revenues to the Company to help finance a portion of the project. The Development Plan will finance public improvements outside, but directly related to, the District. The original valuation of the property was \$18,207,173; \$38,257,664 in TIF captured value was added, bringing the 2014-15 valuation of the property to \$56,602,944.

Due to the closure of the mill, the two TIFs related to the mills are being eliminated in agreement with the new owners of the site in order to provide a clean slate for the property. The new owners may apply for other TIFs depending on the nature of the redevelopment of the site.

On March 27, 2003, the Bucksport Town Council approved a Tax Increment Financing District for Ellis & Guerrette. The original valuation of the property was \$28,300; \$1,076,340 in TIF captured value was added, bringing the 2014-15 valuation of the property to \$1,104,640. Fifty percent of the property taxes to be generated on the improvements within the District will be returned to the developer for 14 years or until \$71,000 is returned to the developer. The remaining 50% will be retained by the Town and used to fund the development plan of the District.

On February 28, 2011, the Bucksport Town Council approved a Tax Increment Financing District for Leadbetter Realty Trust. The original valuation of the property was \$16,600; \$375,200 in TIF captured value was added, bringing the 2014-15 valuation of the property to \$391,800. Fifty percent of the property taxes to be generated on the improvements within the District will be returned to the developer for 15 years or until \$40,000 is returned to the developer. The remaining 50% will be retained by the Town and used to fund the development plan of the District.

TOWN OF BUCKSPORT, MAINE
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2015

NOTE 19 - JOINT VENTURE

The Town of Bucksport is a member of the Joint Venture of the Equity Charter Municipalities of Municipal Review Committee, Inc. (Joint Venture). The Joint Venture is an organization that resulted from a contractual arrangement between certain member municipalities, Penobscot Energy Recovery Company (PERC) and Bangor Hydro Electric Company. It was formed to pool resources of the Equity Charter Municipalities for the long-term goal of handling the disposal of their present and projected volumes of non-hazardous municipal solid waste. As of December 31, 2014 (most recent data available), the Town of Bucksport's share of the Joint Venture's net position was \$492,891. Complete financial statements may be obtained from the Municipal Review Committee, 40 Harlow Street, Bangor, Maine 04401.

NOTE 20 – DEFICIT FUND BALANCES/NET POSITION

At June 30, 2015, the Town has the following funds with deficit fund balances:

| | | |
|------------------------------|-----------|---------------|
| Bucksport Police Department | \$ | 320 |
| 2013 CDBG Housing Assistance | | 12,258 |
| | <u>\$</u> | <u>12,578</u> |

NOTE 21 - CONTINGENCIES

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the Town's financial position.

The Town participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the Town's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 22 – RESTATEMENTS

The net position of the governmental activities has been restated at July 1, 2014 to account for the implementation of GASB Statement No. 68 *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27 (Issued 06/12)*. As a result, the beginning balance has been reduced by \$458,149.

TOWN OF BUCKSPORT, MAINE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 22 – RESTATEMENTS (CONTINUED)

The beginning net position for the business-type activities has been restated as of July 1, 2014. This balance was restated to correct the capital asset balance in the sewer fund. The sewer fund and the business-type activities were restated by \$17,039.

The beginning net position for the business-type activities has been restated as of July 1, 2014. This balance was restated to correct the accumulated depreciation balance in the sewer and marina funds. The sewer fund and the marina fund were restated by \$97,835, and \$548, respectively.

The beginning net position for the governmental activities has been restated as of July 1, 2014. This balance was restated to correct the accumulated depreciation balance. The governmental activities were restated by \$198,292.

The net restatement to the governmental activities and business-type activities was (\$259,857) and \$115,422, respectively.

NOTE 23 – COMPARATIVE DATA/RECLASSIFICATIONS

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the Town's financial position and operations. Also, certain amounts presented in the prior year's data have been reclassified to be consistent with the current year's presentation.

NOTE 24 – SUBSEQUENT EVENTS

The fiscal impact of the mill closure is reflected in the dramatic reduction in value from 2014/15 to the 2015/16 tax year. However, fortunately the Town was successful in its application to the State Department of Revenue services under the Sudden and Severe Impact law that allows for the April 1, 2016 assessment for State aid assessment purposes (education, state revenue sharing) to reflect the loss of mill valuation. The result is significantly more state aid to education for RSU 25, and a much smaller local assessment for Bucksport. The Town utilized 25% of its fund balance in FY 15/16 and raised the mil rate \$3 to maintain services and wait for the Sudden and Severe application to be processed. In the coming year, (16/17), we do not anticipate an additional mil rate increase will be necessary and the use of a large percentage of fund balance will also not be necessary.
