To whom it may concern:

The Bucksport Police Department received a request from the Waldo County Sheriff's Office on a call in the Town of Verona on 12-30-19. The Sheriff's Office requested that we check on a male and female that was standing on the Narrows Bridge. A witness reported observing a male attempting to hold a female back while on the bridge. I responded to this call and met with Waldo County Deputy on the Waldo side of the bridge. We found that this was only a couple taking photographs from the bridge.

I am sending you this notification to make you aware of this call for assistance as is required in our mutual aid agreement. I have also attached a copy of the incident card for this incident.

Sincerely,

David E. Winchester

MEMO

To: Sue Lessard, Town Manager
Fr: Sean Geagan, Public Safety Director
Re: Purchase of chairs for Public Safety Building

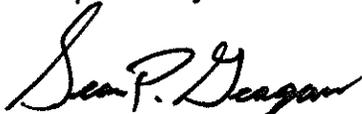

Sue,

The Public Safety Building is due to purchase new chairs for the meeting rooms in the building. This is an item that was put into the building CIP for this fiscal year. The chairs in the building are starting to deteriorate on a weekly basis, welds are breaking with personnel sitting in them and it has become a safety issue.

I have researched chairs and priced them through vendors that we use on a regular basis and have done comparisons online for different style chairs. I have also spoken to the Athletic Director at the Bucksport Middle School as he has the exact chair that we have chosen to purchase and he has seen no issues with the chairs.

I am requesting to purchase 100 chairs at \$29.49 each for a total of \$2949.00. I am asking the council to approve an expenditure not to exceed \$3500 for this purchase to include shipping and chair racks. In preparing for this purchase we had budgeted up to \$9000 for this purpose in our Public Safety Building CIP program.

Respectfully Submitted.

Great lightweight comfortable chair!

I've bought these chairs for our manufacturing lunchrooms. We've had them for over a year and look like they are holding up just fine! They don't get dirty easily. I love how comfortable they are too: there is a lot of nice back support in the curve of the back that makes them surprisingly nice to sit it. They are lightweight, although still hold a lot of weight (we have yet to break one). They also stack nice and tidy in the corner. Would highly recommend them. Just bought more for a new lunchroom as well!

All the heart eyes for these chairs

We purchased these chairs for our Children's Worship space and they are awesome. Very easy to set up and break down. Stack beautifully and work perfect in our space and for what we needed them for.

Too early to report

We have not tested their strength or stability yet. But, they appear to be comfortable. Straight out of the box, I was surprised at how light they are - which could be good or bad. They were well wrapped to limit damage, however 2 of our 20 did have minor abrasions on the legs. The rubber cushions on the legs pivot, and the legs are a bit wobbly since the chairs are so light. I am hopeful that they will work out for our larger employees. But, it's too early to report.

Inexpensive But You Get What You Pay For

We ordered 50 off these chairs and they shipped really fast however the craftsmanship is average. The legs are painted metal and on several chairs the paint chipped off during shipping. Also on several chairs the legs are bent or welded funky. All said the chairs are average quality and a good choice if you are on a budget. The "Free Dollies" really only hold 25 chairs.

Your order should ship out from our facility in 1-2 business days. However, delivery time is contingent upon the location of the customer, the method of transportation being used, and other unpredictable variables.

We have many Hercules plastic stack chairs in our reception area. We have a problem with them tipping forward especially with young children using them. Is there a way to lock them or attach them together in groups so they won't tip?

Warranty Information

This commercial grade banquet chair with trapezoidal back design fits well in formal and casual settings from wedding ceremonies to corporate meetings and awards banquets. The chair's cushioned back and 2.5" thick seat are foam padded. Its sturdy, 16 gauge steel, powder coated frame, with gracefully angled legs, has been tested to hold up to 500 pounds. Double support braces reinforce the frame to give it great strength and durability. Bumper guards prevent scratches on the frame when stacked (up to 15 high) and non-marring floor glides protect your floor by sliding smoothly when you need to move the chair. This durable Banquet Chair is an excellent option for churches, banquet halls, training rooms, hotels, convention centers and schools. Add banquet chairs to your home dining table to add a contrasting look to your dining room or kitchen.
